

Aims & Ethos

A St John's education is centred around fostering the aptitudes and nurturing the growth of each child.

We believe that emotional and social well-being, self-awareness and confidence are inextricably linked with academic progress.

We encourage children to become independent, creative and critical learners and to become their best selves in the fullest sense.

We aim to instil a lifelong love of learning through a rich and broad curriculum.

We believe that respect for children, faith in children and an ability to see the world through their eyes should inform our teaching and our care.

We aim for the children at St John's to have a generosity of spirit and compassion in a global society and to embody the values of love, honesty, kindness, respect, service and trust.

We aim to provide premises which allow us to meet our aims and are fit for the very best in 21st century education.

In all that we do, our aim is to work closely with parents, guardians and the children themselves.
